“We Always Welcome Your Stay & Have Sweet Memories”

Copyright@2009 Firefly Park Resort. All Rights Reserved.
Firefly Park Resort Bukit Belimbing in Kuala Selangor is the only place in this region where you can witness the sight of millions of fireflies flashing in synchrony, often referred to as the “Eighth Wonder of the World.”

You will be taken on a boat ride along the Selangor River where the fireflies inhibit around the branches of the ‘Berembang’ trees along the riverbank.

Here, up to thousands of fireflies may group together on a tree, beginning their display about one hour after sunset. A really bright display lasts for about two to three hours, continuing lower levels until dawn.

Chalet

Always putting the comfort of our visitors first, the chalets at the firefly hamlet is made of wood with tastefully designed on the stilts above the water.

The wooden houses are extremely cool and refreshing with all the modern amenities. The blooming lotus decorate the surroundings with simple but in good taste and some breeding fishes are always supplements to the vivid and vigorous atmosphere in the shallow water.

SPECIAL NIGHT FOR VIEWING “FIREFLY”

At the night with no moon, the lush of greenery stood still along both sides of the riverbank, the fireflies become excessively bright, and they blinked their sparkling eyes in disobedient posture.

“FIREFLIES” TOUR

Our fleet of modern fiberglass boats are electrically powered, ensuring absolutely no noise and air pollution. The toneless, powerful boat, which delivered the passenger to the heart of the river, roared in the flimsy voice, for fear that she would wake up the deeply asleep night and those fireflies were enjoying a sightseeing trip in the silence.
