Explore the underwater wonders of the Perhentian Islands with our highly trained, award-winning staff. We offer all PADI courses from Discover Scuba Diving/Open Water to Staff Instructor.

We teach many specialties including Deep Diver (40m), Enriched Air Nitrox, Wreck Diver, Digital Underwater Photography and Emergency First Responder.

We offer dives tailored to your comfort and experience level.

Whether you wish to explore the insides of Sugar Wreck or marvel at the abundance of marine life at Temple of the Sea, we will guide you. If your passion is macro life and photography, we will show you the best muck diving spots.

We take your safety and enjoyment seriously. Dive with peace of mind - we are fully insured. No groups bigger than four per Divemaster or Instructor.

Emergency oxygen is carried on all our boats, which are manned by experienced Captains and have canopies. Electric compressors guarantee clean air.

Quiver
Quiver Dive Team can be found on three beaches in the Perhentians:

- Quiver Coral Bay is in the middle of Senja Bay Resort, on the other end of the beach from the jetty
- Quiver Long Beach is adjacent to BUBU Resort, close to the end of the jetty on Long Beach.
- On the big island, Quiver Arwana is located within the grounds of Arwana Resort on the south end of Perhentian Besar.
